Privacy Policy — Travel Diary

Effective date: August 1, 2026

This notice has been prepared based on Regulation (EU) 2016/679 of the European Parliament and of the Council (GDPR), as well as Act CXII of 2011 on the Right of Informational Self-Determination and Freedom of Information (Infotv.).

1. Data Controllers

Data Controllers: Martin Stecenkó and Milán Molnár, private individuals, as joint controllers (GDPR Article 26).

Email: traveldiary.app.team@gmail.com

The data controllers currently operate the Service as private individuals, without a business entity form. In the event a business entity is established, the name/designation of the data controller(s) will be updated here, and Users will be notified accordingly.

The data subject may exercise the rights set out in this notice with either data controller; the data controllers will forward the request to each other if necessary.

2. Scope and Purpose of Data Processed

Data	Purpose	Legal Basis
Email address	Account identification, login, contact	Performance of contract (GDPR Article 6(1)(b))
Password (encrypted/hashed)	Account protection	Performance of contract
Display name, username	Provision of the Service's functions	Performance of contract
Trip data (address, location, date, description)	Core function of the Service	Performance of contract
Uploaded photos	Core function of the Service	Performance of contract
Contact email (if the user writes to us)	Responding to inquiries	Legitimate interest (GDPR Article 6(1)(f))

We do not process any special category of data (GDPR Article 9), and we do not carry out automated decision-making or profiling.

3. Location of Data Storage

Data is stored on the cloud infrastructure of Supabase Inc., within the territory of the European Union (Ireland, eu-west-1 region).

Data is not transferred outside the European Union. Supabase acts as a data processor, processing data solely according to the instructions of the data controllers, and does not make independent controller decisions.

4. Who Has Access to the Data

- The User only has access to their own data (their own Trips, their own photos) — this is guaranteed by database-level access control (Row Level Security), which technically excludes the possibility of one user accessing another user's data, even in the event of a potential application error.
- If the User actively generates a sharing link for a Trip, the data of that Trip (address, location, date, description, photos) becomes viewable by anyone who knows the link, based on the User's express, voluntary decision.
- The data controllers have administrative access to the database, solely for the purpose of troubleshooting or fulfilling legal obligations, when necessary.
- We do not sell data to third parties, nor do we transfer it for marketing purposes.

5. Duration of Data Processing

Data is processed for the duration of the existence of the user account, or until its deletion. The User is entitled at any time to permanently delete their account and all associated data via the user interface, or through the contact details provided in Section 11.

6. Cookies and Local Storage

The Service uses cookies/browser storage (localStorage) that are technically necessary for maintaining the login session and storing language/display settings (e.g., dark mode). These do not serve advertising or tracking purposes and do not require separate consent, as they are essential to the core function of the Service.

7. Rights of the Data Subject

The User is entitled to:

- request access to the data processed about them,
- request rectification if the data is inaccurate,
- request erasure ("the right to be forgotten"),
- request restriction of processing,
- request data portability (the transfer of their data in a machine-readable format),
- object to the processing.

To exercise these rights, please contact us at: traveldiary.app.team@gmail.com

8. Right to Lodge a Complaint

If you believe that the processing of your personal data does not comply with applicable data protection legislation, you are entitled to lodge a complaint with the National Authority for Data Protection and Freedom of Information (NAIH).

National Authority for Data Protection and Freedom of Information (NAIH) Address: 1055 Budapest, Falk Miksa utca 9–11. Postal address: 1363 Budapest, Pf. 9. Email: ugyfelszolgalat@naih.hu Web: <https://www.naih.hu>

In addition, the data subject is entitled to turn to the courts in accordance with applicable law.

9. Data Security

Passwords are stored encrypted/hashed, never in readable form. Access to data is restricted per user through database-level permission management (Row Level Security).

10. Modification of this Notice

The data controllers reserve the right to modify this notice, particularly in the event of an expansion of the Service's functions (e.g., a paid package, handling of billing data). Users will be notified by email of any material modification.
